B. Ambulance Services Cost Share

City Manager Pete Carr reminded Council that Glenn County agreed in October to purchase the new ambulance that will be operated by Westside Ambulance for \$275,000 and the funding will come out of County American Rescue Plan Act (ARPA) funds. Mr. Carr shared with the Council Westside Ambulance's startup expenses, explained that the new ambulance services will operate 12 hours a day and it will primarily be located in Orland. The City and the County will be splitting the start-up and operational cost 50/50, and from Westside's projections the City cost share would be 50% up to \$650,000 (\$325k) annually after the first year.

Vice Mayor Roundy shared his frustrations with the ambulance coverage and explained that the ambulance discussion has been an on-going topic that has been long overdue for a solution.

Mr. Carr asked Council to decide where they would like to take the funding from for the cost share service -- either Measure A, General funds or a future additional half-cent sales tax that may be put on the ballot in November 2024. The Council discussed funding options, asked City Staff questions, and ultimately decided to use Measure A funds for the first year and revisit the item in 12 months with the possibility of finding an alternative funding source.

Orland resident Earl Megginson stated his appreciation for the proposed new service.

Action: Mayor Dobbs moved, seconded by Councilmember Tolley, to approve the agreement as presented with funding coming from Measure A for the first year with the stipulation of reviewing the funding in 12 months to determine the next year's funding source. Motion carried by a roll call vote 4-0.

Ayes: Councilmembers Tolley, Romano, Vice Mayor Roundy, and Mayor Dobbs
Nays: None

Mr. Carr expressed his appreciation for the City's partners at Glenn County and Westside Ambulance and stated this new service is monumental.

C. Habitat for Humanity Purpose Place Phase 2

Mr. Carr brought forward an early discussion to review Habitat for Humanity's request for support of an expansion on the Purpose Place project at 827 Newville. Mr. Carr reminded Council that Habitat for Humanity came to Council on June 6 to ask for support with the expansion of the project, but Council decided to wait 6 months to review how successful Phase 1 of the project was before considering supporting the Phase 2 expansion. Mr. Carr shared that December will be 6 months but thought an early review would be helpful for Council to make their decision. Mr. Carr shared that Phase 2 would include an additional 16 permanent, supportive, affordable housing units with a mix of studio and 2-bedroom units and the possibility of expanding the community gathering area outdoors. Mr. Carr shared

that information and data from Glenn County social workers, Orland Police Department, Orland Volunteer Fire Department and from Westside ambulance is being collected for the current year and past years. Mr. Carr mentioned that one Purpose Place resident has moved on and one has been removed from the residence.

The Council was in agreeance that they would like to hear from neighbors and businesses close to Purpose Place to get their feedback. Councilmember Romano asked to hear from Glenn County HHS workers to hear their feedback on the program. Mr. Carr shared that this topic would be back December 19th for Council to take action on.

D. ARPA Budget Update

Mr. Carr provided Council an update on American Rescue Plan Act (ARPA) projects list.

Mr. Carr spoke about changes to the list which included the additional allocation of \$25k for a Cat population reduction project (partnership with the County) and pointed out that \$50k for construction of EV charging stations in town would no longer be needed since the City has an agreement with Rivian for them to install electric vehicle charging stations at no cost to the City. Mr. Carr suggested beneficial uses for the \$50k including:

- A. Allocation of up to \$20,000 to Orland Public Works for acquisition of trees for City parks.
- B. Allocation of up to \$20,000 to enhance a December re-launch of Queen Bee Bucks.
- C. Retention of all or part of the \$55k (and the EV \$50k) against future project needs.

Public Works Director Ed Vonasek suggested the consideration of downtown façade improvements to City owned buildings.

Mr. Carr reminded the Council that there is no deadline to use ARPA funding. Councilmember Tolley stated that he would like to wait on making a decision on spending the money and discuss more at a future date. Vice Mayor Roundy shared that he would like to see the City start thinking long term about creating a groundwater recharge budget for the future. Councilmember Romano shared that funding for groundwater recharge should come from water rates and recommended that topic should be added to a future agenda as a discussion item. Councilmember Romano stated he would like to hear from the community on if there is a project in the community that residents believe money should be spent and suggested a new paint job on Carnegie Center. Mayor Dobbs shared he would like to see \$20k to Queen Bee Bucks as well as planting new trees. Vice Mayor Roundy asked to see the tree plan and quotes; Director of Administrative Service/ACM Rebecca Pendergrass stated she would email the information to each Councilmember for review. Mayor Dobbs asked to wait on approving the trees and downtown façade improvements until the December 5th meeting where Council can review more information on the projects.

Action: Councilmember Romano moved, seconded by Vice Mayor Roundy, to allot an additional \$20,000 into the Queen Bee Bucks program. Motion carried by a roll call vote 4-0.

Ayes: Councilmembers Tolley, Romano, Vice Mayor Roundy, and Mayor Dobbs
